May 6, 2015

To: All Royalty Owners

Your monthly royalty payment is at risk!!!!

An organization known as the "Committee to Ban Fracking in Michigan" will begin collecting signatures this month in their third misguided attempt to ban hydraulic fracturing in Michigan via a ballot proposal.

This time they take their misinformation campaign one step further. The language they will be hitting the streets with ensures that no new wells will be drilled in Michigan, hydraulically fractured or otherwise, AND current wells, yours included, will most likely be closed while they still have potential to provide you with an income.

The language listed in their ballot language would effectively ban the techniques used on all wells to produce all oil and gas and to keep the well vibrant for as long as possible.

If successful, Ban Fracking in Michigan will kill jobs and cut important revenues to state and local governments while increasing costs to consumers and will likely CAUSE AN END TO YOUR ROYALTY PAYMENTS.

Don't let Ban Fracking in Michigan's irresponsible proposal HIT YOU IN THE POCKETBOOK. Proposals to eliminate Michigan's natural gas production are irresponsible and would hurt our state's citizens, businesses and manufacturers that depend on this reliable, clean and affordable energy source.

If you're asked to sign a petition, DECLINE TO SIGN and tell your friends and neighbors to do the same.

To sign up for a free monthly e-newsletters to keep informed on this issue and others that may impact you, please email office@michiganoilandgas.org.

Sincerely,

NuEnergy Operating, Inc.
